Refund Policy

Naija City · Effective 10 October 2026

This policy explains when you can get your money back for a card payment made on Naija City. By completing a purchase, you agree to it.

1. What you are buying

Purchases are digital: in-game currency, upgrades and other virtual items. They are delivered to your account right after payment is confirmed.

2. When we refund

We will refund a payment in full if:

- you were charged but the items were not delivered to your account;
- you were charged more than once for the same purchase;
- the payment was made without your permission (report it within 30 days);
- you ask within 7 days of purchase and have not spent or used any of the items.

3. When we do not refund

- Items that have already been spent or used in the game.
- Requests made more than 7 days after purchase, except for unauthorised payments.
- Accounts closed or suspended for breaking the game rules, including cheating and abuse.
- Loss of in-game money or progress caused by gameplay, such as losses from crime, elections or business decisions.

4. How to ask for a refund

Email **support@naija.city** or **support@kaduna.life** from the address on your account. Include your player name, the date and amount of the payment, and the reason. We reply within 3 business days.

5. How you get the money back

Approved refunds go back to the original card. Your bank usually takes 5 to 10 business days to show it. Refunded items are removed from your account.

6. Disputes with your bank

Please contact us before asking your bank to reverse a payment. We can usually fix it faster. If a dispute is opened, we will send this policy and your payment records to the bank.
